## Contact List Database Software Crack +

Contact List Database Software is a simple and lightweight program that helps you to keep all the contact information for your contacts in one place. You can find entries by either typing in a name or by selecting a contact from a list. The program has limited options, but you can customize it to suit your needs. Each contact entry consists of four columns: first name, middle name, last name, and e-mail address. In addition to this, you can add notes to your contacts, and you can upload a few photos with them. You can search for contacts using a wide variety of methods. You can type in a name, you can select a contact from a list, you can type in a location, or you can combine all these methods. You can also use an advanced search option to look for contacts based on information provided in their first name, last name, email address, or phone number. It is a very easy and straight-forward application to use, and it doesn't require any in-depth knowledge to operate. The only thing you need to know is that you have to provide the contact's name, birthday, contact information, and a few notes. If you can't find a contact on your iPhone, you can easily save it to your contacts list so you can quickly access it. Your contacts will stay with you on all your devices and you can send them messages through the app without having to do much else. To conclude, Contact List Database Software allows you to organize all the contact info you have on your devices. Although it is an easy to use program with very limited features, it does the job quite well. Key Features: - Supports contact data entry for first and last name, first name, middle name, last name, email address, phone number, birthday, notes, photo, and web information - You can organize your contacts by typing in a name, or from the contact list - You can find any contact in just a few seconds thanks to an advanced search - Add contacts from your iPhone, iPad, Mac or PC - You can share contacts between your devices - Easy to use and very straight-forward - Keep all your contacts with you in all your devices - The program is compatible with iPhone, iPad, and iPod touch - Works on all devices that are running iOS 5 or later [fullsquaread][fullsquaread] [fullsquaread][fullsquaread] [fullsquaread][fullsquaread]
