Samsungs infinite supply of phones is only getting stronger, and it seems as if it could be gearing up to release a Galaxy S20+ for everyone. The best way to test if this is true is by trying out the newest Galaxy S20, S20+, or S20 Ultra which is expected to arrive sometime in the first half of 2020. The first batch is expected to arrive at the end of February, and each month that passes makes the new Galaxy flagship models even more intriguing. We can only hope that once the S20+ arrives, the delays and issues that have plagued it will be dealt with. No matter how closely you look at the screen on the Samsung Galaxy S20, it will always have some sort of light bleed. This effect can vary greatly depending on your viewing environment, and can even vary with the color of the phone. Until a new phone is announced, you can stop worrying about those display artifacts. Are you an avid Galaxy S20 Ultra user? No matter the device, the performance on your Galaxy S20 Ultra has improved over time. While theres still nothing you couldnt handle with the S20 Ultra, Samsung has taken it a step further in its April 2020 update. If you feel like youre getting bogged down with the performance, nows the time to check on it. Theres a few things you can do to tweak the Android phone. Begin by following these steps: We like the Galaxy S20 Ultra, even if you re not a fan of the screen. There are a lot of great aspects to this phone, so you may not like the screen at all. If that is the case, you cant wait to theres a way to fix the problem. If youre too far into a Galaxy S20 Ultra, there are a few things you can do to help make the phone function correctly. For starters, you can start by resetting the phone:
